2. www.7dollargiveaway.com
3. www.universityofdomain.com
4. www.hardthingsareeasy.com

You can order for some of his products that are below:

Why Domain Business?

All over the Internet, people must host websites to sell their products or services. They need to do that with a domain.

In fact, domain name is the fulcrum of the Internet. Each day you visit a site, you are typing a domain name.

A domain name will enable you own a website hosting account which will enable you own upload your site and create an email account for correspondences.

Example of domain name is Nigeria.com, Nigeria.name, henryomenogor.com, menogdomain.com, yahoo.com.

This is comparable to registering your company with Corporate Affairs Commission.

It is entirely different from hosting an account which is comparable to renting a space for your office to run your company.

Each day, millions of domains are registered for different purposes.

Domain name is paid for yearly and it's on first-come-first-serve basis.

Instead of registering domain at domain registration sites such as 007names, godaddy, yahoo.com, register.com, 1and1.com etc for N2,500 or N3,000, you can own your personal domain registration reseller account and register

domain for N900 and charge clients who want to register domain on your own domain site for N2,500.

Imagine having 500 domain names registered which are renewable each year by your clients. This will enable you make a gain of N1,400 from each client giving you an average of N800,000 each year without lifting a finger.

And this will continue as more customers will be coming.

More to this is that if you run a web hosting company, you make more money by hosting site for them for a minimum of N30,000 per annum. So if you host sites for 500 companies, you also make N15Million from this business yearly. I know you are excited! Why not go into webhosting too...

Aside the above, if you are interested in investing in domain business, this is a great potential as you will be able to buy domains for less than N1000 and resell it for profit, You can also create blogs and sell them by flipping.

You can also lease your domain at leasethis.com. You see the potential!!

Domain Business Defined:

A domain is an area of jurisdiction or control. Domain name are names used in hosting websites such as yahoo.com, henryomenogor.com, godady.com.

To register this domain, you must visit a domain registration site which is either a reseller account or a direct site from ICAN.

Example of an ICAN accredited domain registrar is register.com and an example of a1 domain reseller account is ohmydomain.com.

What are the Advantages of owning my own site:

1. You can express yourself as the owner of a domain registration site
2. You can sell in the currency of your choice, either your country's local currency or in dollars
3. You get the domain at a reseller price and sell to all end users at the normal market (end user) price.
4. Your site is seen and not any other site by the provider. For example, my domain reseller site is www.ohmydomain.com
5. It is automated and so you do not need to be there when your clients register domain and receive mails from your company.
6. You are seen as an expert
7. You make money registering domain names for people
8. You can register domain of various extensions including .com, .us, .org, and .uk
9. You can fund your account using Liberty Reserve, credit card and paypal so there is no limitation.
10. You are getting a domain for N900 and Selling for N2,500 per anum. What a great gain

11. You only pay N2,000 to renew your site each year so there is minimal investment.
12. You can register domains and sell it at selling sites such as sedo.com, afternic.com, sitepoint.com etc. To get this package, visit www.hadrthingsareeasy.com

Example of a domain Registration Company is as below:

To Own Your Domain Reseller Company, Call Menog Computers/Oh My Web Site on 08027246021 or email me on menog@menogdomain.com

How Do I own My Domain Registration Site:

Simple! You need to sign up for a reseller account and have it set up

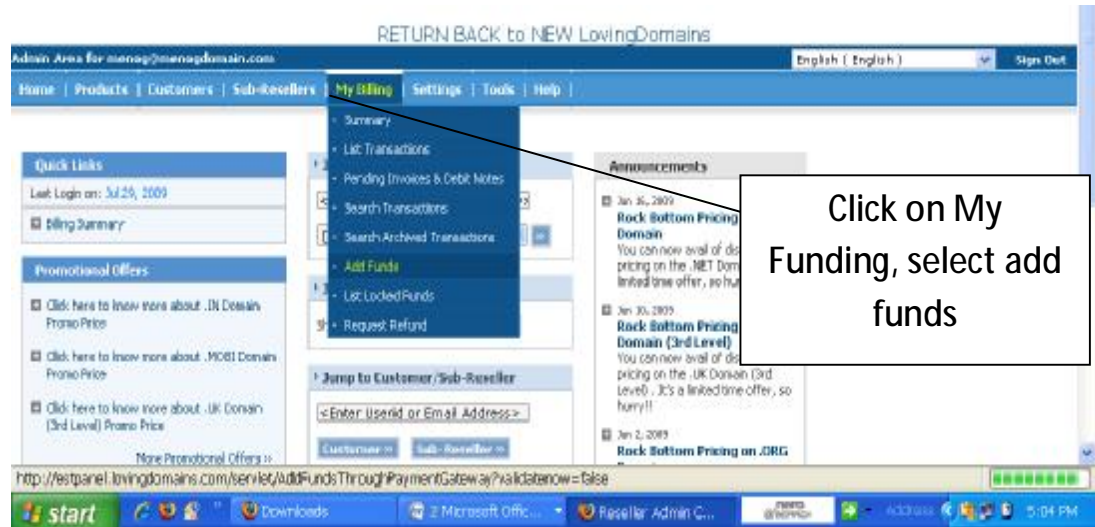

1. You need is a domain name reflecting your company or any name you want to use. Eg., my company name is Oh My Website and my domain registration company is www.OhMyDomain.com.
2. You need an email address to receive notification of registration and for your correspondenses.
3. You need a bank account at least to receive your payments from your clients if you are not running a globally automated registration company. Here your clients register domain name, they are alerted by the system to make deposit for their account to be activated. Once they do that, you activate their account and the domain starts working.
4. You need the sum of N12,000 to have your site up and running including N2,500 for domain registration. But if you are my old client (purchased our product before), then there is a rebate of N4,000. You must quote this number for me: **1010mydomain**
5. **Pay this ammount to the following Account Number: GTB Current Account Number: 249222461110 with name of account as: Oh My Website. After your payment, send a mail with your details including address, full name, domain name your want to use, phone number, email and amount paid with teller number. Once we make confirmation, your domain company will be up and running within 5 working days.**
6. You can start using it immediately by logging into your reseller account control pannel as below:

This is the admin control panel where you activate account and set up your URL and also, customize your information as well as fund your account.

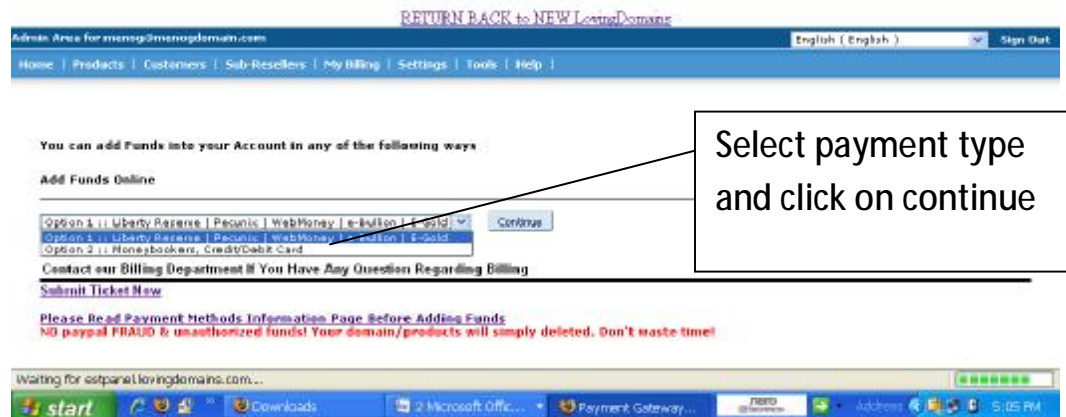

How Do I Start Funding My Account:

All you have to do is Log into your dashboard and add fund to your account. Steps to take: Log into your account:

Click on my funding, click on add fund and it takes you to the next step.

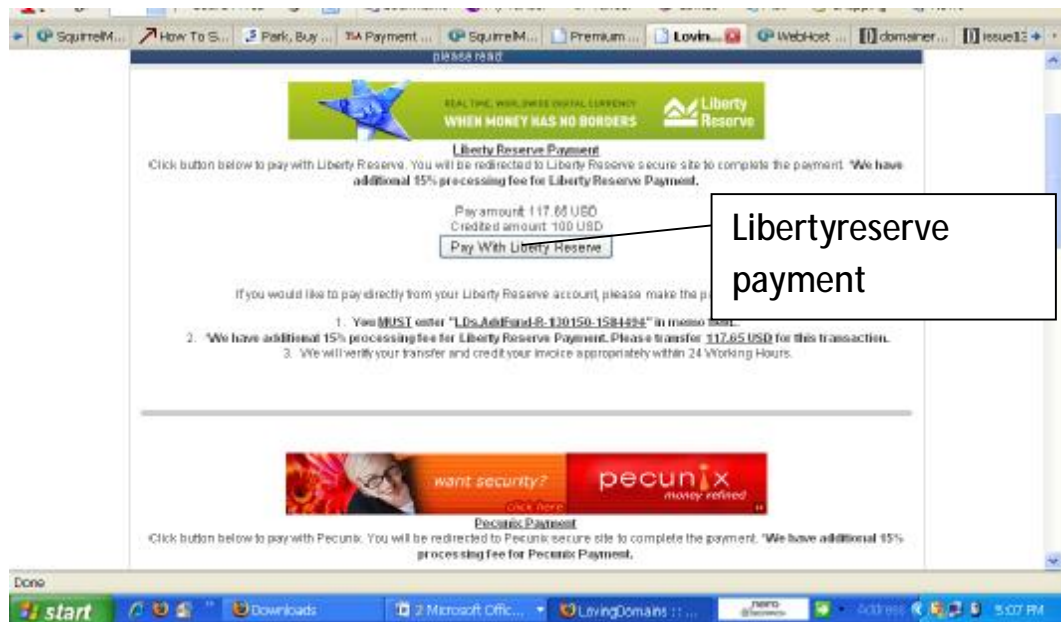

While in the payment type section, select payment type, libertyreserve if you are paying through libertyreserve, select the second option if you are using credit card option and click on continue as in the next diagram

Add the amount you want to credit and click on submit

It brings you to where you now chose a payment method, preferably libertyreserve. Click and make payment as below:

Note that there is a %15 processing fee for libertyreserve.

Once funding is complete, you will be returned to the dashboard again. Note that you will need to register for a free account with libertyreserve.com to be able to use it. You will also need to buy libertyreserve from sellers after signing

up for a libertyreserveaccount. I will recommend Mr. Nwankwo whose phone number is : 08037280848.

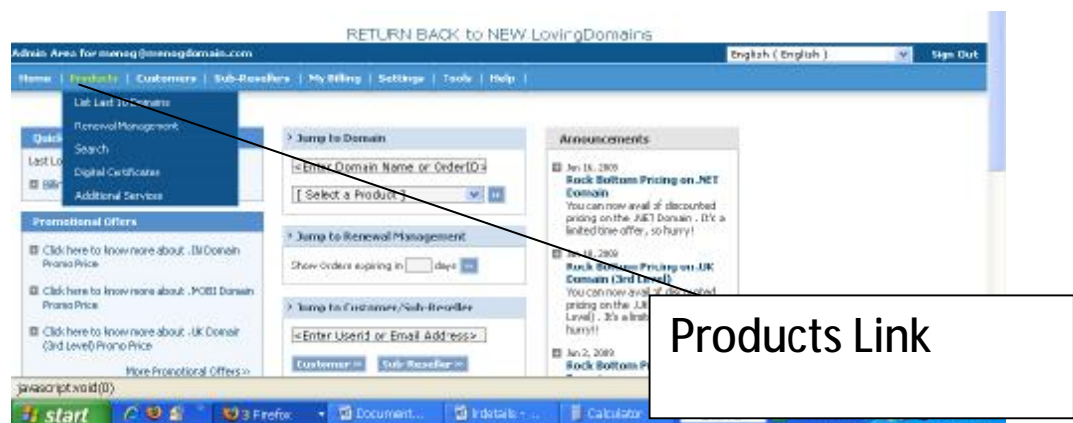

How Do I activate Domains Once it is registered?

Refer clients to your domain site such as mine. Visit my domain registration company at www.ohmydomain.com.

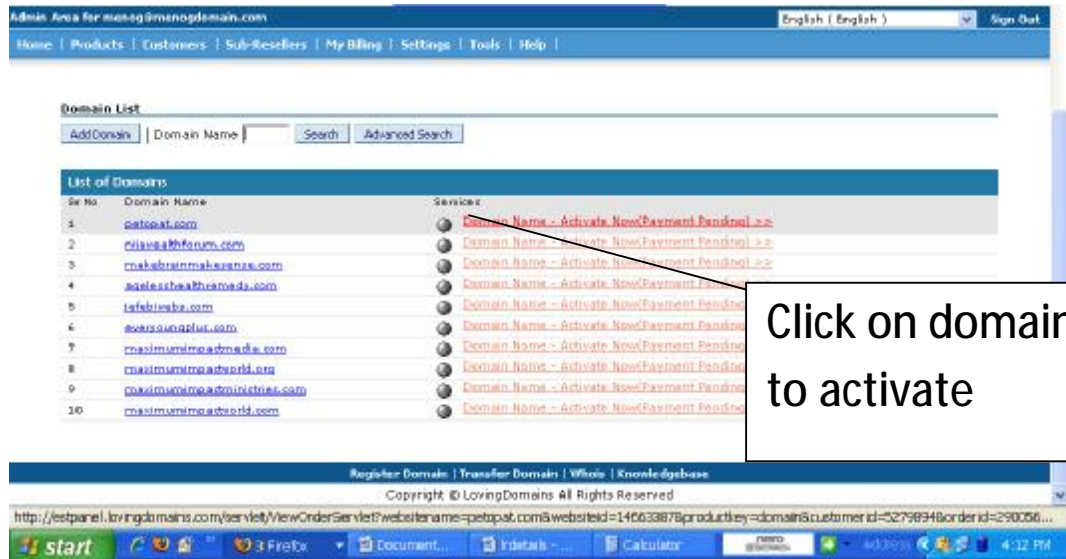

Once they register for domain name, an email is sent to them instantly from your company even while you are sleeping. This is automated and so you do not need to do anything.

An account number and details of how they can make payment is sent to them. Once they make payment to your account and you have confirmed the money, you log into your reseller account dashboard and activate their domain and it starts working instantly.

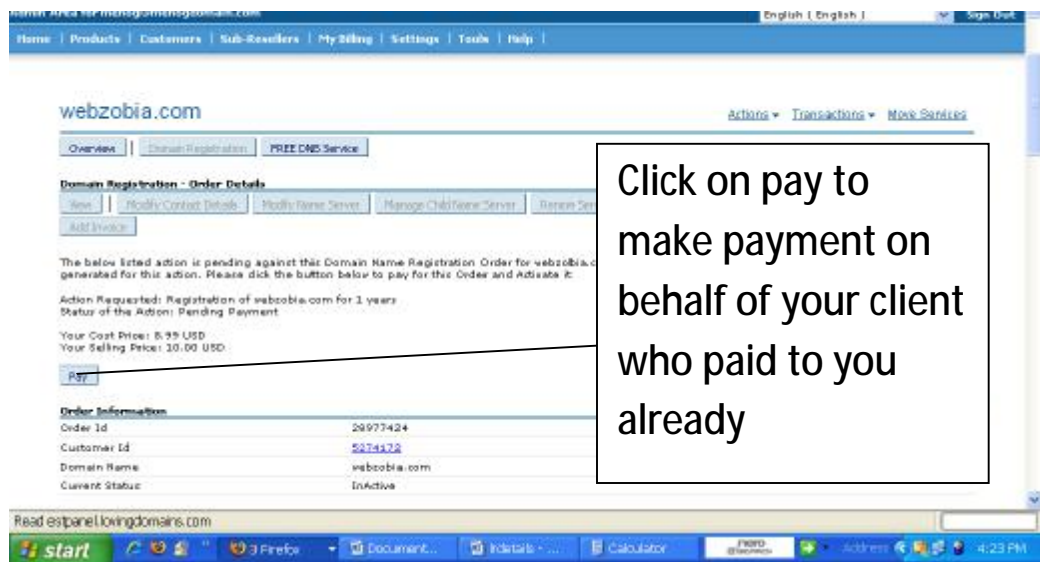

Once you are inside your dashboard, click on *products*, click on *list 10 domains as below*:

While on the list of domains, click on the domain that was registered and was paid for as listed below:

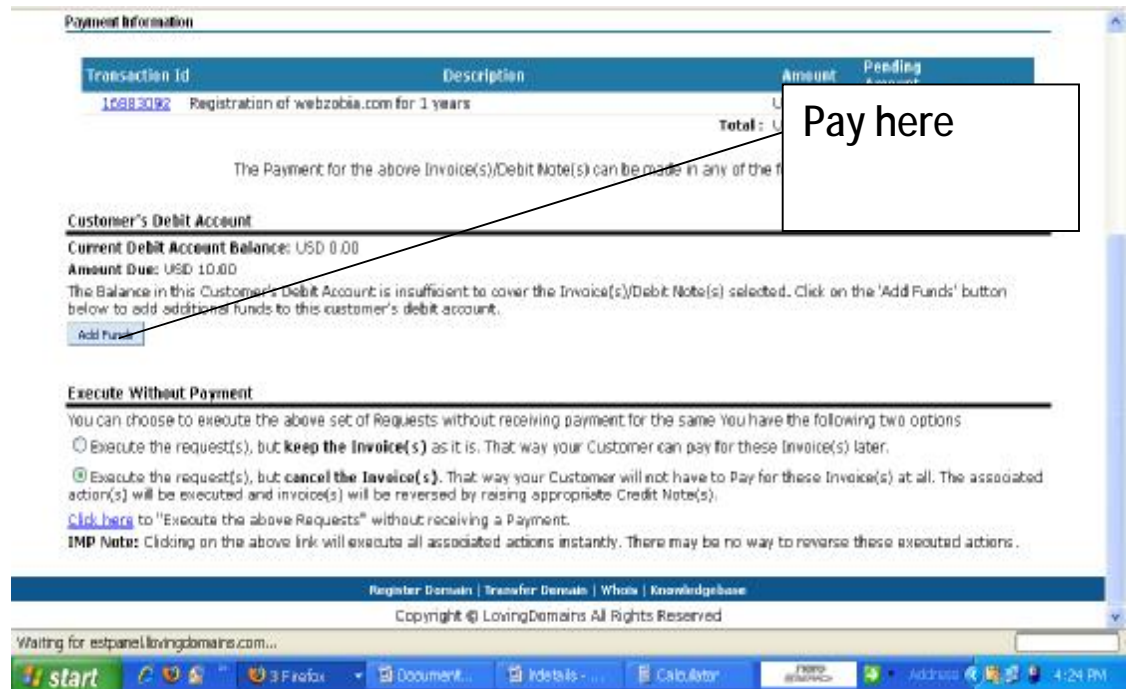

Click on domains to activate

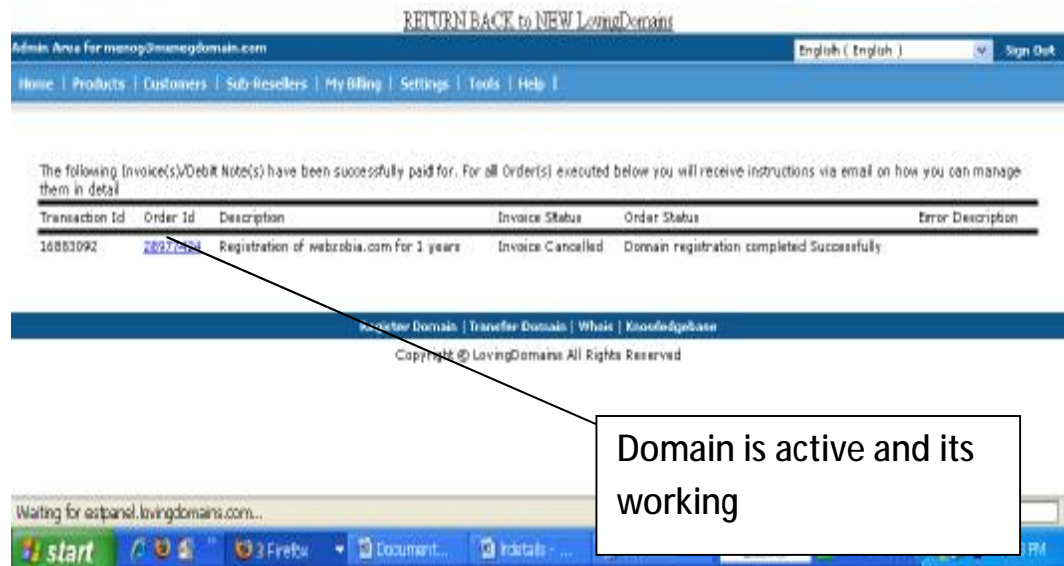

Click on pay to make payment on behalf of your client who paid to you already

Click on second option which means you are paying on behalf of your customer and cancelling the invoice so he will not have to pay.

Once this is done, you will see the successful payment info as below. And then the domain is active.

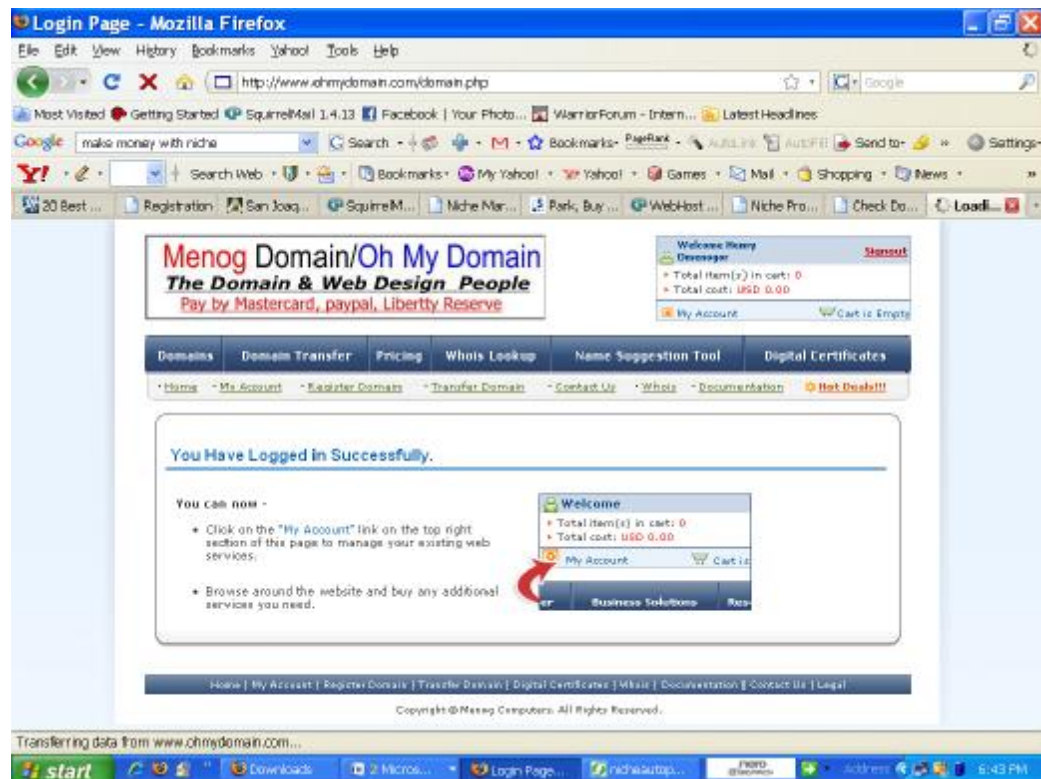

How much will my client pay to have his domain registered on my domain site?

He will need to pay N2,500 per annum and pay the same amount once its expiring.

How Will my client know domain is expiring? A mail will be sent to him 90 days before expiration, 60 days again and 30 day finally. Once domain is not renewed. The domain will go into demurrage and finally deleted. Mails will be sent to him on each situation for renewal.

How can I get mine now?

First, look at how your will look like when you have it. It will look exactly like mine

Then call my office now or send a text message or email.

Grab your own domain site now:
